Lighting finish

Alabastro (ALB)

La **finitura Alabastro** dona ai modelli luce una doppia anima, naturale e organica. Da spenta, la superficie opaca rivela una texture irregolare con inclusioni che richiamano la pietra grezza. Una volta accesa, la luce attraversa il materiale, esaltandone la grana e diffondendo un bagliore caldo tra ambra, pesca chiaro e sabbia.

The **Alabaster finish** gives the lighting models a dual nature, both natural and organic. When unlit, the matte surface reveals an irregular texture with inclusions reminiscent of raw stone. When lit, light passes through the material, enhancing its grain and diffusing a warm glow in shades of amber, light peach, and sand.

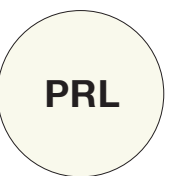

Opale (OPA)

La **finitura Opale** dona alle lampade un’eleganza discreta con luce bianca. Spenta, la superficie è liscia e uniforme; quando accesa, diffonde una luminosità chiara e pura, ideale per ambienti moderni e armoniosi.

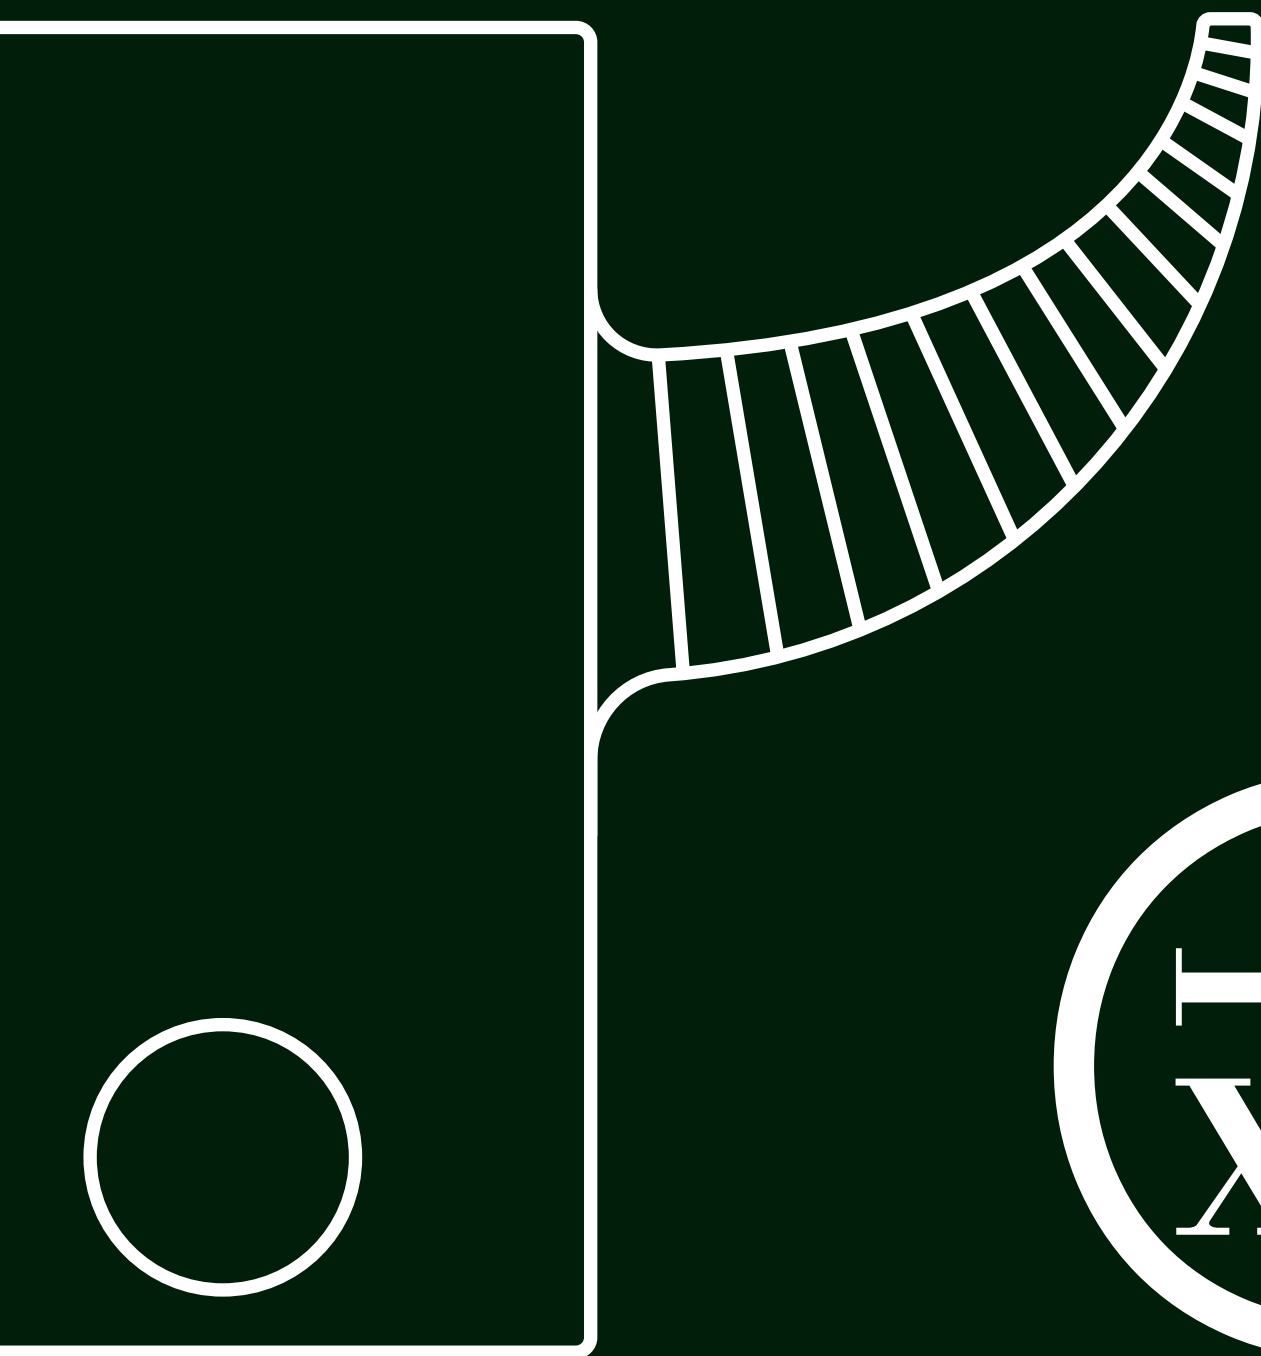

The **Opal finish** gives the lamps a discreet elegance with a white light. When unlit the surface is smooth and uniform; when lit, it diffuses a clear, pure brightness, ideal for modern and harmonious spaces.
